

MONIQUE SINNETT

BEAUTY THERAPY, RIVERINA INSTITUTE

Senior School Subjects

- Year 11: VCAL - Literacy, Foundation Mathematics, Work Related Skills, VET Beauty Services, Personal Development.
- Year 12: VCAL - Literacy, Physical Education, Work Related Skills, VET Beauty Services, Personal Development.

Why did you choose these subjects? I chose these subjects because I was interested in all of them and wanted to try them all out.

What resources did you use to choose subjects? The Senior Course Guide and my Learning Mentor.

How did your senior school subjects prepare you for your course? Some of the subjects helped me prepare for my course like doing VET Beauty Services. But I wish I had read into what you learn doing the Diploma at TAFE as there is a lot of biology, science and chemistry subjects and I did not learn them at school so I was learning everything fresh in those subjects which was pretty hard and full on.

What advice can you offer students interested in studying beauty therapy? My advice would be to do lots of work experience at all sorts of different beauty places; it's only going to better you as a beauty therapist. Even just to make sure you will enjoy doing the course as it's very full on and requires all of your focus.

What are your future career goals? My future career goals are to hopefully work in a salon for two years or so then branch out into cosmetic treatments and injectables.
